Glenn Fischer Elected to NIAA Board of Directors

COLORADO SPRINGS, CO— Glenn Fischer, senior vice president of Allflex USA Inc, was elected to serve a three-year term on the National Institute for Animal Agriculture's Board of Directors. Fischer was one of seven individuals newly elected to the Board during NIAA's annual meeting in Louisville, Ky., March 31-April 1.

NIAA's Board of Directors guides the organization's 213 members from the beef, dairy, swine, sheep, goat, equine and poultry industries. Membership includes national and state livestock, poultry and equine organizations as well as veterinarians, government regulatory personnel, academia, researchers, extension specialists, producers and allied industry businesses and organizations.

"We are extremely pleased to have Glenn join NIAA's Board of Directors, as he's dedicated his professional life to animal agriculture and animal identification and has a pulse on the industry," states Dr. Leonard Bull, chairman of NIAA. "Glenn is well versed about NIAA and its mission and just last year served as Chairman of our ID·INFO Workshop 2008."

In addition to serving on NIAA's Board, Fischer has served on the Executive Committee, Board of Directors and the Allied Industry Chair of the National Cattlemen's Beef Association and on the Board of the National Farm Animal Information and Records initiative.

The National Institute for Animal Agriculture provides a forum for building consensus and advancing proactive solutions for animal agriculture—the beef, dairy, swine, sheep, goats, equine and poultry industries—and provides continuing education and communication linkages for animal agriculture professionals. NIAA is dedicated to programs that work towards the eradication of disease that pose risk to the health of animals, wildlife and humans; promote a safe and wholesome from supply for our nation and abroad; and promote best practices in environmental stewardship, animal health and well-being. NIAA members represent all facets of animal agriculture.
