9/ Overhead pen readers on retractable cable

To completely take advantage of RFID technology, Boontech also supply complete handling units for Cattle/Sheep/Swine & Goat.

5 way fully automatic Cattle weighing /drafting unit

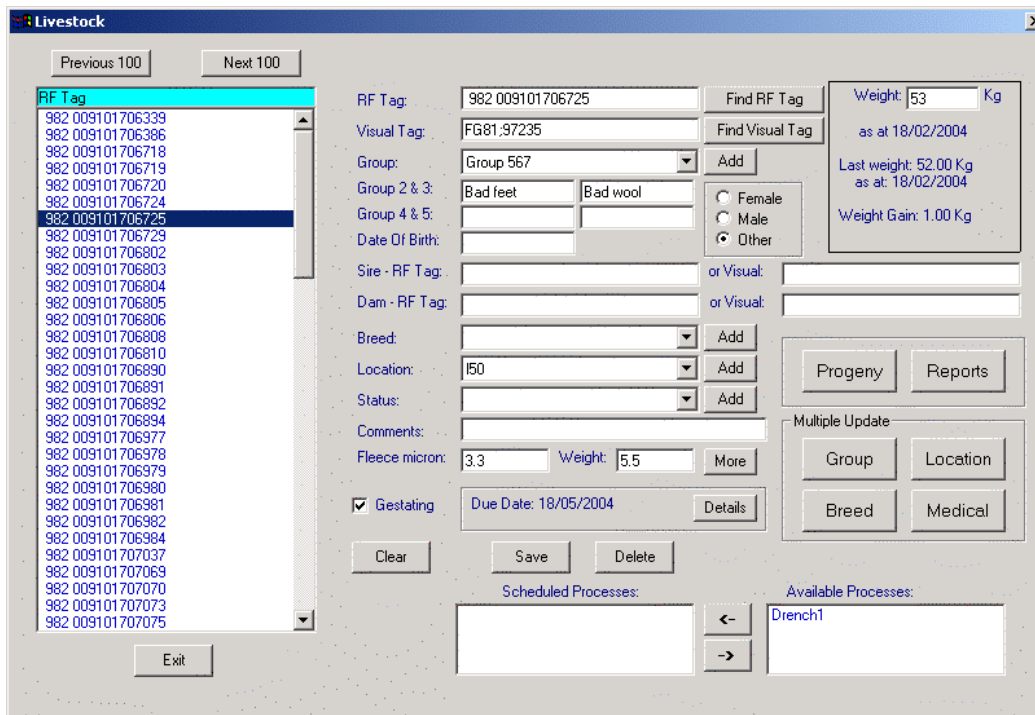

5 way fully automatic Sheep weighing/drafting unit

Units

- a) Weigh
- b) RF Identification
- c) Auto Drenching
- d) Record
- d) Drafting or Sorting up to 16 ways

Management software for animal history/treatments etc Recording

Autolink Controller for integrating

- a) Weigh Scales
- b) RFID readers
- c) Movements
- d) Software
- e) Memory
- f) Drafting
- g) System diagnostics
- h) Communication
- i) Remote control
