**The National Institute of Animal Agriculture (NIAA)
can exercise “poetic license”
to come up with a practical logic of identifying
any area into a resolution of
160 acres (1/4 of a square mile)**

There are over 200 countries in the world of agriculture.

**Let us use the alphabet + 1 through 9
To make up identification of all nations
(other than the U.S.)**

$$24 \times 18 = 206$$

This should be enough for our purpose.
