Control Units

- Available in two models
 - Synchronized
 - Non-Synchronized
- Industry leading read range
- Both are Auto-Tuning

Farnam
Livestock
Tracking
Systems™

Large Panel Antenna

- Designed primarily for alleyways
- Not recommended for squeeze chutes due to its size
- Great for facilities that see various species of animals (Cattle, Sheep, Goats, etc...)
- Approx. 48" X 32"

Farnam
Livestock
Tracking
Systems™

Medium Panel Antenna

- Designed to be used in squeeze chutes and alley ways that see similar sized animals
- Approx. 32" X 24"

Farnam
Livestock
Tracking
Systems™

Small Panel Antenna

- Designed for small animal facilities
- Not recommended for use with cattle
- Approx 23" X 16"

Tag Antenna

- Great alternative to chute side wand reader
- Can be placed at processing site as tags are applied
- Can be used as a back-up reader
- Must be used with LTS control unit
