Background

- USAHA Livestock Committee Resolution 26
  - Support of the creation and maintenance of a publically-accessible resource that compiles identification, documentation, disease-specific, and other requirements for moving livestock interstate.
- Partnership with NIAA (National Institute of Animal Agriculture)
- Garner funds from USDA Veterinary Services Animal Disease Traceability
- Competitive bid process
- March 2015 - contract awarded to Trace First
Year 1 – objectives achieved

- Captured Bovine movement regulations
- Built web site software to query regulations
- Built web database of Tagging Sites
- Captured data from States
- Launched in October 2015
Process

- Requested point of contact in each state
- Prepared flow chart of the ADT rule regulations
Process

- From each state requested a list of questions, answers and associated regulations; approved tagging sites
- Developers created software that feed the live website
- Entry of data supplied by the states
Interstate Animal Movement Requirements

Quick, accurate access to state import requirements for livestock.

FIND REQUIREMENTS...

To get started, answer a few questions about your livestock movement circumstances. After that, you'll receive an easy to follow report about what is currently required for your livestock movement.

Disclaimer: This site is operated by Trace First Limited (TFL) on behalf of NIAA and USAHA. The information in this site is not intended as and should not be construed as legal advice. TFL makes reasonable efforts to ensure that the data is accurate and up-to-date but disclaims liability or responsibility of any kind arising from the regulations being inaccurate or out-of-date. If you are moving livestock it is entirely your responsibility to ensure that all applicable state, local, tribal and federal regulations are complied with.

Please read the regulations listed below:

APPLICABLE REGULATIONS FOR THIS MOVE

1. Official USDA identification, registry brand or registry tattoo.
2. Interstate Certificate of Veterinary Inspection (ICVI) issued by an accredited veterinarian 30 days or less prior to entry, with official ID numbers recorded on the certificate.
3. Negative tuberculosis test within 60 days of movement.
4. Negative trichomoniasis test within 30 days of movement.

Official eartags for cattle:

1. NUES 9 tags
   - Bright' tags
   - OCV/Bangs tags (orange)
   - USDA metal tags
2. AIN tags
   - '840' prefix
   - '900' series (mfr. codes) and "USA" prefix (official ID only for tags manufactured before March 11, 2014 and applied before 3/11/2015)
