Thursday, November 3, 2022

8:00 – 8:15 AM

Welcome and Introductions NIAA Chair & Antibiotics Council Co-Chair

- Dr. Eric Moore, Norbrook
- Dr. Megin Nichols, The Centers for Disease Control & Prevention

8:15 – 8:45 AM

Opening Keynote

Antibiotics. One tool in the toolbox ... what else are farmers, ranchers, and veterinarians using to care for animals?

Tom Noffsinger, DVM

Dr. Noffsinger has more than 30 years of experience in beef cattle practice and is now an independent feedlot consultant specializing in facility design, stockmanship, and low-stress livestock handling. He is an owner/member of Production Animal Consultation, Pierson Precision Auscultation, and the Cattle Performance Enhancement Company. He was the recipient of the 2001 Consultant of the Year award from the Academy of Veterinary Consultants for his work at PAC.

8:45 – 10:00 AM

Power Talks

Into the future

Antibiograms: Stepping into the Future of Veterinary Antibiotic Stewardship

– California Department of Agriculture

New veterinary medicine

As we go from OTC to RX, how do vets provide more veterinary oversight universally?

What is happening globally?

It's been said that the European regulation affects the future of American regulation when it comes to our food supply. What are the latest proposals abroad and is it on the United States' doorstep?

– Rachel Cumberbatch, DVM, Animal Health Institute

Telehealth and stewardship

How has the pandemic and updated regulation affected the future of telehealth in veterinary medicine? Will this be a useful and accessible resource for farmers, ranchers, and veterinarians?

Tracking usage

As federal policy changes, what is being done to communicate the new rules with farmers and ranchers and how is producer usage being tracked?

– Amar Bhat, PhD, Reagan-Udall Foundation

10:10– 11:00 AM

Breakout Sessions Two (Application)

Participants will build upon learning from the previous day's breakout session to learn more about the practical applications of their preferred discipline to become better stewards of antimicrobials while combatting antimicrobial resistance.

- Communication – led by National Pork Board and Cattlemen's Beef Board
- Research – led by National Institute of Antimicrobial Resistance Research and Education (NIAMRRE)
- Education – led by American Farm Bureau Foundation for Agriculture

11:00 – 11:30 AM

Report Out ... Application

11:30 AM – 12:30 PM
Closing Keynote

Public Health

12:30 – 12:45 PM

Wrap-Up & Closing Remarks

NIAA Chair & Antibiotics Council Co-Chair

- Dr. Eric Moore, Norbrook
- Dr. Megin Nichols, The Centers for Disease Control & Prevention

1:00 PM

Lunch Buffet
